Organic Chemistry Questions for sem III(C-VI)

1. Write short notes on Bayer-Villiger oxidation.
2. Write structure of diazomethane.
3. Describe Kolbe-schmidt reaction.
4. Give a brief description of Hoffmann rearrangement.
5. Write structure of diazonium salts
6. Describe Reimer-Tieman reaction.
7. What is HVZ reaction?
8. Describe Benzil-Benzilic acid rearrangement.
9. What is more stable between primary amine, secondary amine and tertiary amine?
10. Write short notes on sandmeyer reaction.
